1. A new runway for jet planes, about 150 m. wide and 1500 m. long, is under construction at the airport Praha-Kbely. Approximately 400 workmen are engaged in this work in three shifts. The construction is guarded by SNB and persons not engaged in this project are barred from this region.
2. In July or August 1949 a secret warehouse for arms and ammunition was erected at the Masaryk railway station for the workers' militia of the station employees. The arms are mainly automatic weapons and rifles with the appropriate ammunition and hand grenades. The keys are in the possession of the commander.
3. Mine fields are being laid on the Czechoslovak side of the Bavarian border. There is such a mine field near the Ostra hill, about 500 m from the frontier in the direction of Hybl. The mines are in the moss where it is very difficult to detect them. They are egg-shaped and have a diameter of 10 cm. Informant could not ascertain their depth.
4. Towers with searchlights are being erected on hills in the neighborhood of the Czech-Bavarian border. One is definitely known to be on the Ostra hill in the Sumava Mts. Towers are also being erected elsewhere; for example at As.
